LETTER OF TRANSMITTAL

His Excellency,
GOVERNOR A. W. McLEAN,
Raleigh, North Carolina.

SIR: I have the honor to submit herewith the report of the Reverend L. L. Boyd, Superintendent of the Morrison Training School, Hoffman, North Carolina, covering the operation of the institution from July 1, 1925 to June 30, 1926 and is accompanied by a copy of the Audit made by the Hon. Baxter Durham, Auditor.

The Board of Directors desire to thank you for the sympathy and aid extended this school during the two years of operation. We are always glad to be of any service we may be able to give that this institution may measure up to the desired expectation.

Very truly yours,

W. L. PARSONS,
Chairman, Board of Directors.

January 1, 1927.

AIM AND PURPOSE OF THE INSTITUTION

The school commits itself to the task of making citizens rather than punitive repression. Its task is the making of a life rather than the accumulation of wealth. Its special work is with human material that demands sympathetic spirits and trained minds and hands that will guide them into paths of usefulness within the range of their varied possibilities.

The institution approaches with faith the manifold duties in this work of preparing each boy that he may with ease meet the exacting requirements of human society. It assumes full responsibility for training them mentally, morally, spiritually and industrially: and it sets its face unswervingly towards this goal.

We feel that this institution should create an atmosphere that is conducive to higher and nobler feelings. That the fact of their presence here should create in them the spirit of honesty, justice, righteousness and industry.

It is our purpose that the Morrison Training School follows safe and sane methods. We feel that nothing should be done that will add to the disadvantages already developed in their lives. Their rehabilitation should rest upon the foundation of righteousness, usefulness and achievement.

THE HONOR SYSTEM

This system imposes a definite responsibility upon each boy. No guards are kept and each boy is placed upon his honor to follow right action as a choice. As fast as character and self control are developed those making the highest rank are given credits and promotion. The entire group looks forward to these stirring moments and eventful hours.

Music has played a great part in the scheme of things. A chance to study books, the vesper impression hour, the early morning "start

right" talks all blend harmoniously into a fitting environment for healthy growth in character.

THE HEALTH OF THE CHILDREN

During the past twelve months we have seen some radical changes for good in the health situation at the school. Many of the boys come to us in a broken state of health. Most of them were undernourished, discouraged due to past experiences and a poor outlook on life. These and other unfavorable conditions wrought mightily against the interest of good health. With our meager supply of pure milk and wholesome food, proper rest, sufficient exercise and proper health habits we have kept down illness to the point of \$45.50 for the entire year and elevated good health to a plane of romping, happy, contented youngsters.

PUBLIC SCHOOL WORK

Our course of study begins with the lowest grade and runs through the ninth. Every boy must attend classes 22 hours each week for a school term of eight months. The minimum requirement of the State Department of Education is fully met. Teachers of the highest type of approved colleges make up our faculty.

RECOMMENDATIONS

- (1) A modern dining hall to seat 225 students is an urgent necessity.
- (2) Equipment for Isolation quarters is imperative. With a little more work done on this building and the necessary equipment we will have quarters that will be adequate to meet any emergency.
- (3) We urge that additional dormitory space be provided to take care of an increase of 125 boys for the ensuing biennium. We have been forced to turn away 234 boys from taking training here due to lack of room.
- (4) An Administration building is sorely needed. We recommend that it be so constructed as to provide residence for the Superintendent and family. We also urge that fireproof vaults be built for the protection of state records. No arrangements have been made for these records and they are at the mercy of chance in case of fire.
- (5) A modern school building fully equipped is strongly urged. The work is now carried on in a two room, upright, rough plank building that is neither suitable nor safe. It is a menace to life

STUDENT OFFICERS

Just a bit serious now

A LITTLE HARMONY BEFORE DINNER

and health. It is the type that invites fire hazards. It fails in every way to represent the great state of North Carolina.

In the proposed building we earnestly urge that a basement be so constructed as to house trade shops to take care of an Industrial Arts school.

- (6) Agricultural Equipment. If the school is to hasten the day of self support, much of our operating expense must be earned and saved through farm activities.

Our immediate needs are as follows:

- 6 good mules.
- 8 high averaging milch cows.
- 1 pure bred stock cow.
- 6 pure bred sows.
- 1 pure bred stock hog.
- 50 pure bred hens.
- 5 pure bred cockerels.
- 1 dairy house equipped.
- 1 10-20 tractor.
- 2 1-ton trucks.

We have at present too much wood that is decaying, following up land clearing, that could be sold at a good profit. There is a continued demand for boys labor on neighboring farms but a way must be provided to handle boys in mass if we are to profit by it.

- (7) Our light plant is far from being adequate. We feel that it is an unfortunate situation when a correctional institution is forced to operate with poorly lighted buildings and darkened grounds. The situation explains itself. We urge that a 25 h.p. oil burning engine be installed with a 10 k.w. generator and automatic switch control that will take care of present and future needs. With this current we will be able to use small generators to take the place of uncertain gas engines and tricky magnetos.
- (8) Our stock barn is located 250 yards from living quarters and is too close for the good of the health of all. We recommend that it be moved to a distance of 800 yards.
- (9) Our present water supply is not sufficient for our needs. A large reservoir on the campus and a larger concrete retainer at the pumping station would take care of present and future needs.

- (10) We further recommend that the sewerage disposal system be enlarged and that the septic well be moved to greater distance from the dormitory.
- (11) To meet the expansion cost of the above recommendations for permanent improvements and equipment, an engineer figures the cost to be \$100,000.

MAINTENANCE

1927-1928	\$25,000
1928-1929	35,000

In closing I desire to thank you and each member of the board for the kindly aid and advice given during the year. You have been of the largest help to me, and I am sure that without you the work could have never succeeded to the happy point at which we find it. I am,

Most sincerely yours,

L. L. BOYD, *Superintendent.*

January 1, 1927.

AUDIT REPORT

MORRISON TRAINING SCHOOL
HOFFMAN, N. C.

FOR THE FISCAL YEAR ENDED JUNE 30, 1926

STATE AUDITOR'S DEPARTMENT
BY C. A. GANTT

Raleigh, N. C., December 22, 1926.

Honorable BAXTER DURHAM,
State Auditor,
Raleigh, N. C.

DEAR SIR: In accordance with your instructions an audit has been made of the books of the Morrison Training School, Hoffman, N. C., for the year ended June 30, 1926. This report consists of three exhibits and three supporting schedules covering only the operations of the maintenance fund.

EXHIBIT "A" is a statement of Revenue and Expense, showing State Support, Institutional Earnings, Cash Balance June 30, 1926 and Expense Disbursements for the period.

EXHIBIT "B" summarizes by functions and account number the receipts and disbursements. A deposit of \$139.52 for the period was deposited in July, 1926 and immediately transferred to apply on deficit, leaving a net overdraft of \$150.21.

EXHIBIT "C" classifies expenditures by objects and accounts numbers.

SCHEDULE 1 is a reconciliation of Bank Statement with Cash Account, and a list of Outstanding Vouchers.

SCHEDULE 2 presents a statement of per capita cost in accordance with the method prescribed by the State Auditor's Department.

SCHEDULE 3. Compensation of Salaried Employees as of fiscal year 1926-1927, and does not agree with Compensation of Salaried Employees for fiscal year 1925-1926 on account of change in management.

Respectfully submitted,

DEPARTMENT OF STATE AUDITOR.

By C. A. GANTT.

LETTER OF TRANSMITTAL

His Excellency,
Governor A. W. McLean,
Raleigh, North Carolina.
My dear Governor:

I respectfully herewith transmit to you the report of the Reverend L. Letchee Boyd, Superintendent of the Morrison Training School, Hoffman, North Carolina, covering the Operation of this institution from July 1, 1926 to June 30, 1928, together with a copy of the Audit made by the Hon. Baxter Durham, State Auditor.

The Board of Trustees appreciates very keenly the sympathetic co-operation and unstinted support which you have so generously offered through the Budget Bureau during this Biennium. We wish to assure you that whatever service we may have rendered this institution and the State it has been done with joy.

Respectfully submitted,

W. L. Parsons, Chairman
Board of Trustees.

STATEMENT OF ORGANIZATION

1. THE MORRISON TRAINING SCHOOL (State Training School for Negro Boys) was created by an act of the North Carolina Legislature of 1921, P. L. 190, s. 1. This law makes provision for a governing body for the institution known as the "Board of Trustees." This Board to be appointed by the Governor of the State and confirmed by the State Senate. The term of office for each Trustee is four years.

II. THE FUNCTION OF THE INSTITUTION.

Primarily, the function of this institution is to receive, control, care for and discipline delinquent boys of the State. Objectively, the institution aims at reclamation rather than reformation, through a well worked out educational scheme for training. It makes no attempt at breaking down the will through repressive measures. With a sane look at life and its meaning it tries to visualize a well adjusted citizen with a contribution for our Commonwealth and the Social Order of which he is a part.

III. OUR PRESENT AND PROSPECTIVE ORGANIZATION SET-UP.

1. Administrative Department.
2. Educational Department (School-in-Letters).
3. Vocational Department (School-in-Trades).
4. Military and Disciplinary Department.
5. Agricultural Department.
6. Moral and Religious Education Department.
7. Boarding and Housekeeping Department.
8. Recreational Department.

THE INSTITUTION

The Morrison Training School was created and organized to do a special work. A work of an exceptional character. While its physical structure should seriously claim our attention, the moral, intellectual, spiritual, industrial and social needs of the boys that are sent here should be our gravest concern. True economics exerts itself first on behalf of human life and its needs. Afterwards it considers the conservation of dollars and cents. The institution appreciates the difficulty of its task in reclaiming these young lives that have been forced by various circumstances and conditions to begin life wrong. It realizes the sunken moral depth in which these children have heretofore been forced to live. But we feel that dark as the picture may seem there is cheering hope for every boy who comes to this institution. The good that the institution can do for them and the widening possibilities that address themselves to the workers from day to day seem almost limitless. With each new and advanced step of the work a most wholesome environment is created. The very atmosphere about the grounds tends to give each child a new lease on life. The cleanliness of the campus, the gracefulness of our new buildings, the cheerfulness of growing flowers, the systematic routine of each day's activities, the increased individual responsibility, have wrought wonderful changes in the temperamental life of the boys. We have come to feel that this institution is one of North Carolina's greatest human endeavors; and ultimately one of its greatest achievements.

The Morrison Training School is not a reformatory in the common sense of the term. But its real aim or purpose is to correct and train, or better still, to correct through training. The institution is forging its way as rapidly as possible to that ideal state in which the juvenile thought is gripped with right manners, and proper behavior rather than the thought of repression, punishment and imprisonment. Moved by this feeling, their work soon becomes a virtue rather than means of punishment.

SUPERINTENDENT'S REPORT

Hon. W. L. Parsons, Chairman, and Members of the Board of Trustees of the Morrison Training School, at Hoffman, North Carolina.

Gentlemen:

The Biennial Report of this institution from July 1, 1926 to June 30, 1928 is as follows:

Enrollment at beginning of period	62	
Received during period	123	185
Paroled during period	29	
Escaped during period	8	
Total leaving during period		37
Total remaining		148
Population at close of period, June 30, 1928		148
Average population during period		102
Cost per Capita, Day		.46
Cost per Capita, Month		14.00
Cost per Capita, Annum		176.00
Applications denied due to lack of room		286

Vagrancy -----	1

SOME WHYS OF LARCENY

This being the chief cause for the delinquent of our inmate boys we treat this subject as the basic fault. From what we have found through investigations and work with the boys here, the cause of larceny delinquency is largely due to the environment in which weak and untrained children must live. It seems that ignorance backed by poverty is largely responsible for the excess looting on the part of delinquent Negro boys. We find that most of the boys come from homes where parents are too ignorant or don't have the time to throw the proper restraint around the lives of their children. In most cases the children "Raise" themselves. The habit of leaving children to take care of themselves while both parents are away at work does not only increase delinquency but breeds continuous property. Gainful offences against property on the part of the most children is due to waste, ignorance and the crave for possession. The children of the ignorant and poverty ridden homes desire to have things with greater frequency than those of the better and more intelligent homes. The reason for this needs no explanation.

Many of the boys here have not enjoyed a Christmas holiday in their

lives if receiving and giving means anything to children on Christmas. Poverty and hunger amass many grilling, complex situations for children and the only hope for the child is to take him out of his unfavorable surroundings and place him where he may be trained to make proper adjustment in the midst of life's problems. Give him culture, some practical book knowledge, place in his hand a vocational weapon and he will bless the community in which he lives.

THE HONOR SYSTEM

No movement within the institution has meant more to the individual growth of the boys here than the honor system. The system places confidence in each boy and in return the boy strives to prove himself worthy of the confidence imposed. This inspires individual acts of merit and therefore develops early habits of right conduct. The system is void of strained efforts. Each member of the group is led to adopt natural habits of growth. They are never urged nor encouraged to do the unnatural thing. We keep ever in mind that the boys are yet in their youth and the proper life structure may be firmly and securely built.

At stated periods, when we feel that a promotion should be made, the student body is called to meet in a general assembly, at which time every boy receives credits according to development made. This is one of the greatest events of our school life. From far down in the ranks some faithful boys are asked to come up higher. When some lowly fellow has been drawn from the ranks and given a "Higher" Office as the boys call it, the proverbial roof is lifted with applause. Great hand shaking takes place and congratulations are showered upon the victor. For months following, the machinery of the institution runs almost perfectly. The new officer brushes his hair vigorously, pays more attention to his tooth brush, walks more erect, and his manners are Chesterfieldian. Often his voice can be heard through the dormitory—"Less noise fellows," and the group pays its respect. Many such instances may be recited as the result of this most helpful system.

HEALTH CONDITIONS

During the four years of the operation of this institution not one child has died. Not one case of serious illness has been recorded. Only two minor operations have been necessary. Not one serious accident has happened. Not one outbreak has occurred to endanger life, health or limb. The credit is due largely to careful observance of rules and untiring supervision of teachers and student officers.

Total Collected to Date	\$ 467.00

We have purchased a twelve piece band and the training of our boys in band music is progressing far beyond our expectations. As soon as a sufficient amount is raised from friends we aim to build up the band to a military standard.

Heretofore our boys have drilled to the tune of one-two-three-four. They now step to the lively tune of a 12-piece band. We look forward to the time when the military department will be a standard unit at the institution, and the band as an inspiring background and a fascinating fore-front.

REPORT OF 1927 PERMANENT IMPROVEMENT PROGRAM

PROJECT I.

Constructed additions to Dormitory complete, to accommodate 70 additional boys.

Erected School Building of seven class rooms, auditorium, one library room, one office complete.

Erected one Administration Building with quarters for Superintendent's family complete \$ 33,960.00

One general contract covers the whole project. This work has been completed.

PROJECT II.

Heating system installed and fully connected in School Building and Administration Building. The old heating system in Dormitory renewed and added thereto additional sections to accommodate and meet demands of additional wings. This work has been completed at a cost of

3,948.00

PROJECT III.

Plumbing complete for additions to Dormitory for School Building, for Administration Building and water lines covering 2200 lineal feet of 2 inch and 3 inch pipes at a total cost of

2,330.00

This work has been finished and is meeting with general satisfaction.

PROJECT IV.

Additions to frame Dining Hall with Dining Room and Kitchen equipment, construction of Feed Barn, and purchase of six cows at a cost of

3,808.84

All of this project has been completed.

PROJECT V.

Constructed through Carolina Power and Light Company, a power line from Hoffman, through School grounds to water station. This project has been completed and is in full operation at a cost of

5,000.00

PROJECT VI.

Built Sewer Line through School campus to a distance of 1-4 mile from school to newly constructed filtering impound, complete at a cost from contractors of

2,427.90

This project has been completed and in full operation.

McLEAN BUILDING—"SCHOOL-IN-LETTERS."

(Class in brick masonry and plumbing at Morrison Training School.)

PROJECT VII.

Installed a power driven pump with a capacity of 2500 gallons of water per hour at a cost of _____	500.00
This project has been completed and is giving satisfaction.	

PROJECT VIII.

Hauling sand, cutting sewer line ditches, building concrete walls for protection sewer line against destruction by flood waters, etc _____	402.35
Of this amount we have spent _____	156.00
<hr/>	
There still remains _____ \$	246.35
This will be used to complete the project.	

PROJECT IX.

Furnishings and Equipment for Dormitory additions, Administration Building, School Building _____	\$ 5,626.88
--	-------------

PROJECT X.

Architect's Fee _____	2,097.00
Appropriations:	
1927 Legislative Appropriation _____	60,000.00
1924 Balance Brought Forward _____	100.97
<hr/>	
Total Available _____	\$60,100.97
Total spent to date _____	59,603.05
<hr/>	
Unexpended Balance _____	\$ 497.92

REQUEST FOR PERMANENT IMPROVEMENT APPROPRIATION
BY PROJECTS FOR THE BIENNIUM 1929-1931.

Appropriations: 1923, \$50,000. 1927, \$60,000.

PROJECTS

PROJECT I.
BUILDINGS:

Two 2-story Brick and Tile Dormitories to accommodate 50 additional boys each. This is to meet the urgent demands from Superior and Juvenile Courts of the State. More than 200 applications have been denied admission on account of the lack of room accommodations. Buildings complete with Plumbing and Heating _____	\$ 42,500.00
---	--------------

PROJECT II.

One Trades Building constructed of sheet iron and heavy timbers, one story high 60x100 ft., with concrete floors, to provide space for seven vocational shop rooms ----- 11,000.00

PROJECT III.

One 2-story Brick Veneer Cottage for single young women teachers. This is, in many ways, one of our most urgent needs. The cottage is to contain 10 rooms complete ----- 11,000.00

PROJECT IV.

One Brick Veneer Dining Room to accommodate 600 persons is a much needed building. The present up-right plank building is a dangerous fire trap to lives and other buildings. The new structure will contain Dining Room for teachers and students. A store room and kitchen will be included in the same plan. Complete with plumbing and heating ----- 15,600.00

EQUIPMENT:
PROJECT V.

Furnishing and Equipment for projects.
Number 1. Boys' Dormitory ----- 3,200.00

PROJECT VI.

Equipment for Project II. Trades Building -----	7,350.00
For Brickmasonry (2 classes 10 boys each) -----	\$ 400.00
For Shoe Shop (2 classes 10 boys each) -----	1,200.00
For Manual Trade Shop (2 classes 10 boys each) -----	1,650.00
Brick Yard (2 classes 10 boys each) -----	1,200.00
For Printing Shop (2 classes 5 boys each) -----	1,400.00
For Auto Repair (2 classes 10 boys each) -----	1,200.00
For Agricultural (4 classes 10 boys each) -----	300.00
	<hr/>
	\$7,350.00

PROJECT VII.

Equipment for Project III, Cottage for single women Teachers ----- 1,100.00

PROJECT VIII.

Equipment for Project IV, Institution Dining Hall ----- 1,800.00

PROJECT IX.

One Water Storage Tank and 1,380 ft. 4-inch pipe	
line -----	3,890.00
	<hr/>
Grand Total Requested -----	\$ 97,440.00

In closing this report I wish to express my warm appreciation to you and each member of the Board for the wise council, the consistent and ever ready help, your willing response to every call made by the Superintendent for the promotion of this work. I am certain that no Board in all the State has been more interested in pushing forward a given task than you have in relation to the Morrison Training School.

I am pleased to have the honor to say, I am

Most sincerely,

L. L. Boyd, Superintendent.

LETTER OF TRANSMITTAL

His Excellency,

GOVERNOR O. MAX GARDNER,

Raleigh, North Carolina.

My dear Governor:

I respectfully herewith transmit to you the report of the Reverend L. Letcher Boyd, Superintendent of the Morrison Training School, Hoffman, North Carolina, covering the operation of this institution from July 1, 1928 to June 30, 1930.

The Board of Directors appreciates very much the wholehearted support you have so graciously given through the Budget Bureau during the entire Biennium. We wish to pledge anew our interest in rendering whatever services we may be able to offer to the State and this institution in reclaiming wayward Negro boys.

Respectful'y submitted,

W. L. PARSONS,

Chairman, Board of Directors

December 1, 1930.

SUPERINTENDENT'S REPORT

HON. W. L. PARSONS, Chairman, and Members of the Board
of Directors of the Morrison Training School, at Hoffman,
North Carolina.

GENTLEMEN:

I have the peculiar honor of presenting the Third Biennial Report of the Morrison Training School for the period ending June 30, 1930.

The Morrison Training School is located in Richmond County and three and one-half miles from the village of Hoffman, twelve and one-half miles east of Rockingham and eighteen miles northeast of Hamlet, near Highway 50.

GENERAL STATEMENT

The school nestling amidst the sand hill pines is providentially located. Health conditions are ideal. The climate is rich with its embracing aromatic breezes the year round. It is seldom too hot and never too cold to enjoy life on the outside.

The boys have made remarkable growth physically, mentally, morally and industrially. Life is buoyant both for inmates and personnel.

The institution is striving daily to build up in each boy a wholesome, honest personality. Our first move is to build up a healthy body through habits of cleanliness, proper diet, regularity in all the details that would help us reach our objective.

Helping the boys to make pleasing adjustments with the members of the group composing our little community has facilitated social progress greatly. Group play in which all have been given a part has done much in eliminating harshness in contact.

AIM AND PURPOSE OF THE INSTITUTION

The school commits itself to the task of making citizens rather than punitive repression. Its task is the making of a life rather than the accumulation of wealth. Its special work is with human material that demands sympathetic spirits and trained minds and hands that will guide them into paths of usefulness within the range of their varied possibilities.

The institution approaches with faith the manifold duties in this work of preparing each boy that he may with ease meet the exacting requirements of human society. It assumes full responsibility for training them mentally, morally, spiritually and industrially; and it sets its face unswervingly towards this goal.

We feel that this institution should create an atmosphere that is conducive to higher and nobler feelings. That the fact of the boys' presence here should create in them the spirit of honesty, justice, righteousness and industry.

It is our purpose that the Morrison Training School follows safe and sane methods. We feel that nothing should be done that would add to the disadvantages already developed in their lives. Their rehabilitation should rest upon the foundation of righteousness, usefulness and achievement.

VITAL HISTORICAL FACTS

The institution was opened	January 1925
Original capacity	88
Present capacity	200
Applications denied (lack of capacity)	280
Normal annual demand for admissions	200
Additional capacity needed at present	200

PERMANENT IMPROVEMENT APPROPRIATIONS

1923: \$50,000	1927: \$60,000	1929: \$37,500

TYPES FOR COMMITMENT

Gainful offense against property of others	97
Children's offenses (truancy, running away, etc.)	44
Other offenses	17

PERSONNEL ADDITIONS

During the past Biennium the school has made great strides towards the ideal. The services of a physician and dentist have been added. The physician makes trips to the school several times a week, also upon special calls day or night. This has meant much in offsetting a possible epidemic from time to time in the absence of an infirmary we so much need. The dentist makes weekly trips and is rendering a large service in the care of teeth and conserving the health of the boys. At least 80% of all boys entering the school have very bad teeth and are greatly in need of the application of rigid health measures.

ATTITUDE TOWARDS WORK

In our efforts to develop in each boy the right attitude towards honest labor, we have succeeded beyond our fondest expectation. These boys have gone to the forest and cleared out thoroughly 138 acres of land during the past five years, with nothing to force them but a plan and a motive. They are sent forth to duty as farm-land engineers. The ages of these boys range from 10 years to 18 years. Five years ago the school was not much more than a mass of wild woods. Today it is an estate. The boys brought about this transformation with honest, willing labor.

PUBLIC SCHOOL WORK

Our public school work has made great strides, but we are woefully handicapped by a population which presents a variety of behavior problems. It will require too many specialized instructors to give justice to so many types. Notwithstanding our group of teachers is doing a constructive task. A fine Glee Club is daily in action. Along with our brass band they give excellent concerts. The Glee Club has gone so far as to broadcast over WPTF of Raleigh with great credit, judging from reports received from listeners over the State.

The academic school consists of nine grades and it follows the course sent out by the State Department of Education at Raleigh. The requirement of the State Department is met in large measures. A proof of this fact is shown by the record of boys leaving us and re-entering the school system in various parts of the State.

SOME URGENT NEEDS

Renovation of Varser Dormitory	\$ 10,900
Additional rooms to McLean School Building	6,000
Removal and renovation of barns	2,000
Water line for protection against fire	1,260
Dormitory	36,000
Dining Room	37,000
Refrigeration rooms	1,600
An Infirmary	3,500
Trade Shops equipment	4,900
Custodial Care equipment	5,400
	<hr/>
	\$108,560

OUR BUS AND BAND CAMPAIGN

We needed a bus for various tours through the State. We asked friends of the institution to help us. Below is the outcome of our efforts to July 1, 1930.

Mr. J. Norman Wills	2.50
Hon. A. W. McLean	10.00
Dr. E. E. Cady	5.00
Prof. J. H. Separks	10.00
Mr. T. L. Tate	400.00
Mr. S. N. Boyce	10.00
Mr. J. B. Ivey	5.00
Mr. W. R. Land	5.00
The W. R. Land Company	5.00
Hon. Nathan O'Berry	10.00
Miss E. A. Verrine	5.00
Mr. J. D. Edmiston	5.00
L. H. Parke Company	10.00
Kirsch Brothers	5.00
Mrs. L. Richardson	25.00
Miss Bertha Richards	15.00
H. A. Page, Jr. Ford Company, (credit)	600.00
	<hr/>
	\$1,127.50

This campaign is to close July 1, 1931 when the bus is to be paid for in full as the result of our own efforts. We are to use this vehicle for educational concerts and the routine activities of the school.

I could not close this report without thanking the personnel of this institution for their love and devotion towards the work and the beautiful attitude towards any new demand that has been levied in any crisis. Each instance has been met with whole-hearted support.

To the boys of the institution I owe much praise for their simple devotion under many difficult circumstances, where they have been called upon constantly to give up customs, ideas and habits that had become a part of their very nature.

To the members of the Board, I can but offer thanks and praise for your attitude and sympathetic support.

Most sincerely yours,

LEONARD LETCHEE BOYD,

Superintendent

REPORT OF EDUCATIONAL DEPARTMENT

Rev. L. Letcher Boyd, Superintendent
Morrison Training School
Hoffman, North Carolina

Dear Sir:

I have the honor to respectfully submit my report of Public School work of your institution for the period, beginning July 1, 1928, and ending June 30, 1930.

Due to the fact that you request at least the minimum accomplishment for promotion for half time study in school for each boy—to which all of us agree—the hours set for study and recitation daily are from 8:00 o'clock A. M. to 4:00 o'clock P. M. During this time there are two recess periods and noon-day lunch hour.

I feel that our system is reasonably efficient except there are too many classes to be managed for the number of teachers on the staff. Owing to the wide range of differences in student group, we must make up several extra grade groups in the interest of efficient work.

There are at present nine grades with six teachers. Most of these grades must be subdivided in an attempt to separate the dull from the more intelligent.

Our ninth grade is equivalent to first year high school. Several boys of the higher grades desire to continue their education after leaving the institution and it is our purpose to build well their foundation for future work in any school system.

On behalf of efficiency and convenience all subjects taught in this department were divided between the members of the teaching staff. Instead of requiring one teacher to handle a variety of subjects, the distribution has been grouped so that each child gets the largest benefit from instruction given.

All students from primer through ninth are given vocal training by a thoroughly trained music teacher. We have enrolled at present 158 boys in this department and the work is progressing nicely.

Respectfully submitted,

W. L. REID,

Director, Educational Department

December 1, 1930.

REPORT OF PHYSICIAN

Rev. L. L. Boyd, Superintendent
Morrison Training School
Hoffman, North Carolina

Dear Sir:

May I assure you that my professional connection with your institution has been very pleasant indeed and I have the honor of making the following report for two years ending June 30, 1930:

CASES TREATED:

Burns	18
Bruises	72
Boils	24
Chicken Pox	42
Vaccine for Small Pox	60
Ulcerated Throats	31
Gonorrheal Treatments	18
Anti Syphilitic Treatments	24
Sprains	63
Itch	232
Influenza	48
Ulcerated Abrasions Legs and Feet	304
<hr/>	
Total Number of Treatments	932
Number Professional Visits	312
Number boys treated	164

I desire to suggest that at the very earliest the institution provide for an adequate isolation ward for the reception of new boys sent to the institution.

Respectfully submitted,

FRED D. QUICK, M. D.

REPORT OF INDUSTRIAL DEPARTMENT

Rev. L. L. Boyd, Superintendent
Morrison Training School
Hoffman, North Carolina

Dear Sir:

Permit me to make the following report for the period ending June 30, 1930, covering work of this department as follows:

Land cleared for farming (acres)	36
Cubic yards of driveways and walks	17640
Cubic feet of pool dam	12840
Cubic yards sewer bed built	756
Cubic feet land terraces	71000
Cubic feet sewer line shoulders	70400
Construction of pasture line	6600

SOME ATTEMPTED PROJECTS:

The construction of an eight acre fish pond. This work was discontinued due to lack of working tools.

The cutting of a 12-foot roadway around entire 400 acre tract of land to prevent fires from crossing over from adjoining lands and destroying timbers and undergrowth belonging to institution. This work too has been halted until additional tools may be purchased. This project should be completed at the earliest date possible.

The greatest need of this department is a liberal supply of tools. If this request is granted (see my list) the work of this department will function as never before and much work that is only half finished may be carried on to completion.

I have not mentioned the work of general cleaning of campus and buildings from day to day as you are quite familiar with this phase of the work at all times.

Permit me to say in closing that the school's land should have a three strand fence around the entire property. Much wood

is being removed daily from the forest by unknown parties. This wood for the greater part, is rich lightwood and will prove of great value to the school if saved.

Respectfully submitted,

B. F. CHAVIS,

Director, Industrial Department.

December 1, 1930.
